

Privacy Policy

Effective date: September 29, 2026

1. Who we are and what this policy covers

Grants Republic ("Grants Republic," "we," "us") is a grant writing consultancy headquartered in California. This Privacy Policy explains what information we collect through grantsrepublic.com (the "Site"), including our contact form, newsletter, grant calculators, RFP Search tool, guides, and blog, and how we use and protect it.

This policy applies only to the Site. Information you give us in the course of a paid grant writing engagement is governed by our client agreement with you. This policy supplements our [Terms of Use / Disclaimer](#).

3. How we use information

We use the information described above to:

- respond to inquiries and provide consultations about our grant writing services;
- send our newsletter to people who have subscribed;
- operate the calculators and RFP Search tool;
- keep the Site secure, diagnose technical problems, and prevent misuse;
- understand, in aggregate, which pages and tools are useful so we can improve them; and
- comply with legal obligations and enforce our Terms of Use.

We do not use your information for automated decision-making or profiling.

4. How we share information

We do not sell your personal information, and we do not share it for cross-context behavioral advertising. We do not disclose it to third parties for their own direct marketing purposes.

We share information only in these limited cases:

- **Service providers** that help us run the Site and our business, such as our website host, Bolt.new, email newsletter platform, Email Octopus, and analytics provider, Google Analytics. They may use your information only to provide services to us.
- **Legal requirements**, when we believe in good faith that disclosure is required by law, subpoena, or court order, or is needed to protect our rights or the safety of others.
- **Business transfers**, if Grants Republic is involved in a merger, sale, or reorganization, in which case the successor will be bound by this policy for information collected under it.
- **With your consent**, for any other purpose you agree to.

5. Cookies, analytics, and Do Not Track

The Site uses essential cookies needed for it to function and analytics cookies from Google Analytics that tell us, in aggregate, how visitors use the Site. We do not use advertising cookies or tracking pixels. You can block or delete cookies in browser settings; the Site's tools will still work.

You can opt out of Google Analytics by installing Google's opt-out browser add-on.

Do Not Track and Global Privacy Control. Because we do not track visitors across third-party websites over time, the Site does not change its behavior in response to Do Not Track signals.

6. Third-party sites and data sources

The RFP Search tool retrieves public listings from Grants.gov (through its API) and the California Grants Portal, and the Per Diem Calculator uses published GSA rates. When you run a

search or look up a rate, your query terms may be sent to these government services, which may log your IP address under their own privacy policies.

The Site links to other websites, including Grants.gov, the California Grants Portal, GSA, the Defense Travel Management Office, and our LinkedIn page. We are not responsible for the privacy practices of those sites. Please review their policies before giving them information.

7. How long we keep information

We keep contact form submissions and email correspondence as long as needed to respond and, if you become a client, for the length of the engagement plus at least four years, or longer if a client contract or grant requirement calls for it, for business records. Newsletter email addresses are kept until you unsubscribe. We keep automatic data in aggregate or delete it within fourteen months.

8. How we protect information

The Site is served over encrypted HTTPS connections, and we limit access to personal information to the Grants Republic partners and service providers who need it. No method of transmission or storage is completely secure, so we cannot guarantee absolute security.
